Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 2 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 2 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

Reasons for Allowance

1. Claims 1 and 2 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's invention involves an aqueous solution consisting of potassium sorbate and water wherein the potassium sorbate is present in a specific amount and the solution has a specific pH. The closest prior art is considered to be Stricklin et al (4,374,174) which teaches inhibiting corrosion using potassium sorbate solutions. The amount of potassium sorbate used in Stricklin is much greater than Applicant uses. Applicant has shown, by way of declaration, that using a much smaller amount of potassium sorbate at a specific pH provides rust and corrosion preventive properties for metals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LaToya I. Cross whose telephone number is 703-305-7360. The examiner can normally be reached on Monday-Friday 8:30 a.m. - 5:00 p.m..

In re Application of :
Bernard Bendiner :
Serial No. 09/336,612 :
Filed: June 18, 1999 : DECISION ON PETITION
For: SORBIC ACID AND/OR ITS :
DERIVATIVES, SUCH AS POTASSIUM :
SORBATE, AS A PREVENTATIVE FOR :
RUST, CORROSION AND SCALE ON :
METAL SURFACES :

This is a decision on the petition filed September 25, 2000 requesting the acceptance of color photographs into the above-identified application.

On September 25, 2000, formal drawings, the present petition and a check for the \$130.00 petition fee were filed. Petitioners request that color photographs be accepted in order to fulfill the requirement for formal drawings. Petitioners argue that the color photographs are necessary to properly depict the rusting conditions described in the specification and that black and white photographs would not properly show the discoloration resulting from the rust. In support of the petition, three (3) copies of the color photographs and an amendment to the specification, were filed.

37 CFR § 1.84(b)(2) states that color photographs will be accepted in utility patent applications only after granting a petition explaining why the color photographs are necessary. The petition must include the following:

- (i) The appropriate fee set forth in § 1.17(h);
- (ii) Three (3) sets of color drawings; and

(iii) The specification must contain the following language as the first paragraph in that portion of the specification relating to the brief description of the drawings:

"The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawing(s) will be provided by the Patent and Trademark Office upon request and payment of the necessary fee."

A review of the record reveals that petitioners have fulfilled the requirements of 37 CFR 1.84. The petition is granted. The color photographs have been accepted and will be forwarded to the Official Draftsperson for formal review.
